Who is an Addict?

Most of us do not have to think twice about this question. *We know!* Our whole life and thinking was centred in drugs in one form or another – the getting and using and finding ways and means to get more. We lived to used and used to live. Very simply an addict is a man or woman whose life is controlled by drugs. We are people in the grip of a continuing and progressive illness whose ends are always the same: jails, institutions and death

We Do Recover

When at the end of the road we find that we can no longer function as a human being, either with or without drugs, we all face the same dilemma. What is there left to do? There seems to be this alternative: either go on as best we can to the bitter ends – jails, institutions or death – or find a new way to live. In years gone by, very few addicts ever had this last choice. Those who are addicted today are more fortunate. For the first time in man's entire history, a simple way has been providing itself in the lives of many addicts. It is available to us all. This is a simple spiritual – not religious programme, known as Narcotics Anonymous
